

SONY®

Feel

the bass.

The new Walkman®
NWZ-B130F MP3 Player

Relish thumping deep bass from an MP3 Walkman[®] that does it all.

It's small and stylish, yet big on features. Connect effortlessly to your PC and transfer your tracks via Drag-and-Drop or Windows Media Player 11. Record lectures and your favourite tunes on the radio at the touch of a button. Pump up the bass and watch the Power Illuminator light up. And expect nothing less than exceptional sound quality – because good things do come in small packages after all.

Super Bass Enhancement

Groove to powerful bass sounds and savour the pull of those doubly deep beats. Simply push the bass button and brace yourself for delightful impact.

Power Illuminator

Feel the glow of your music with the Power Illuminator - two red LED panels that pulsate with the rhythm of each song.

Voice Recording

Featuring a voice-recording function, this Walkman® is your convenient memo-recorder. It's simple to transfer and play back lectures, group discussions, and even your homemade debut album!

FM Tuner / FM Recording

Tired of listening to your playlist on an extremely long bus ride? Then tune in to your favourite radio station. What's more, enjoy a ripping good time recording fresh tracks off the airwaves with the built-in FM Recorder and watch your song collection balloon!

Stamina with Quick Charge Technology*

With Quick Charge Technology, it only takes three minutes of charging to render you 90 minutes of blissful music on the go.

5-Band Equaliser

Match your sound to your mood with preset options ranging from Heavy, Pop, Jazz, Unique to Custom.

Drag-and-Drop Transfer

Connect effortlessly to your PC and transfer your tracks via Drag-and-Drop or Windows Media Player 10/11.

USB Rec-and-Play

Play your music via USB connection directly on compatible Sony Audio Systems (upstreaming). This function also allows you to rip a CD straight to your Walkman® without the need of a PC!

* During continuous playback in MP3 128 kbps at Power Save mode "Super", when "LED" is set to "Off", and "Equaliser", "Bass" are not in use. Actual battery life may vary based on usage patterns, environment and battery condition.

* This is only available with audio systems which has both USB mass storage management and ripping and/or upstreaming functions.
